CARE & MAINTENANCE

Each table is made from natural materials that create unique and beautiful characteristics. However, it is essential to note the following care guidelines to ensure its longevity.

Each table you purchase from us is handcrafted, showcasing the dedication and artistry that goes into its creation. The tables may exhibit small imperfections, such as imprints left during application or varying shades on its surface. These nuances testify to its handmade nature and add to its unique charm.

CLEANING

Use a sponge or cloth to gently wipe the tables. Avoid using abrasive materials or harsh chemicals, as they may damage the surface.

- Mix 1 to 2 tablespoons of mild soap in 1 litre of warm water.
- Gently wipe using a white sponge or cloth.

IMPORTANT INFORMATION

Like all natural products such as marble and wood, these tables are susceptible to staining. While it can withstand spills from coffee, grease and similar substances, immediate cleaning is required to prevent permanent marks.

COASTERS & DECOR

We recommend the use of coasters for drinks to minimise the risk of staining. Additionally, avoid leaving flower pots or any items that could trap moisture for extended periods.
